## **DETAILED ACTION**

### ***Response to Amendment***

The rejection of claims 16-19, 28-33, 36 and 39 under 35 U.S.C. 102(b) as being anticipated by Yagi et al., 3,956,185 is moot in view of applicants' amendments.

The rejection of claims 16-19 and 36-39 under 35 U.S.C. 103(a) as being unpatentable over Lee et al., US 2005/0164875 in view of Yagi et al., is moot in view of applicants' amendments.

The rejection of claims 34 and 35 under 35 U.S.C. 103(a) as being unpatentable over Yagi et al., in view of Lee is moot in view of applicants' amendments.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 16-19, 36-39, and 43-44 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. More specifically, the specification as originally filed does not include the negative limitation of "when the ceramic comprises titanium, the fiber does not consist of TiO<sub>2</sub>", as is now claimed. Negative limitations not explicitly supported by the specification as originally filed do in

fact introduce new concepts and are therefore new matter. *Ex parte Grasselli*, 231 USPQ 645, 648 (CCPA 1976).

3. Claims 28-31, 33-34, and 45 are allowed.

### **Conclusion**

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
